

17-METHYL-DIONE EXTREME™ (VERSION IV)

Pro-Anabolic/Anti-Catabolic Agent

17-Methyl-dione Extreme™ (Version IV) is the ultimate pro-anabolic/anti-catabolic agent. This product helps to build muscle and strength by increasing protein synthesis and suppressing muscle protein breakdown.

Ever since the prohormone ban in January of 2005, those of us dedicated to building muscle and strength have been on a quest to find legal and safe, yet potent androgens to help our training efforts. If you are looking for a legal, safe and most importantly, **truly effective** alternative to illegal steroids and prohormones — **17-Methyl-dione Extreme™ (Version IV) is the answer!**

17-Methyl-dione Extreme™ (Version IV) helps the body's ability to increase protein syntheses and suppress muscle protein breakdown. This means that you can consume and utilize more protein than you ever could otherwise which translates into dramatic muscle and strength gains. **This is by far the safest product on the market that still gives prohormone-like results.**

17-Methyl-dione Extreme™ (Version IV) can be sold as a legal, pharmaceutical grade, dietary supplement. The sale and use of 17-Methyl-dione Extreme™ (Version IV) is not in violation of the 2004 Anabolic Steroid Control Act.

This does not mean this compound is not powerful — BECAUSE IT IS! I am currently using the product and am amazed by the results. It

strength gains. **Bottom line — 17-Methyl-dione Extreme™ (Version IV) will definitely help you burn fat while you build muscle!**

Plus, there are no side effects! Since 17-Methyl-dione Extreme™ (Version IV) works naturally with your body, you avoid all the potential adverse side effects that could occur from using prohormones or anabolic steroids. There is no water retention, hair loss or gynecomastia. There is no

has given me that extra kick I needed to break through a plateau I was feeling in my training. I feel awesome! I have more energy and my strength has really shot up! I feel harder and leaner and look more muscular. 17-Methyl-dione Extreme™ (Version IV) has allowed my workouts to be longer and more intense. Plus, **the pumps I am getting are out of this world!**

17-Methyl-dione Extreme™ (Version IV) will also really cut you up. In addition to dramatically increasing the rate at which your body builds muscle and strength, users can expect a lean, dry look to complement their muscle and

liver, heart or kidney stress. There are no cholesterol problems or testicular atrophy AND there are no problems with the law! Nice to not have to worry about these problems, isn't it? All you have to worry about is your training, diet and **packing on pounds of lean, hard muscle and dramatically increasing your strength!**

17-Methyl-dione Extreme™ (Version IV) also increases sexual performance. **Your partner is going to be very happy you discovered 17-Methyl-dione Extreme™ (Version IV) when your libido goes through the roof!**

17-Methyl-dione Extreme™ (Version IV) works very quickly.

Most guys show vast improvements in strength and muscle mass within the first few weeks.

Try it and YOU WILL GAIN SOME SERIOUS MUSCLE!

Each bottle of 17-Methyl-dione Extreme™ (Version IV) contains 60 capsules. You can get great results by taking as little as one capsule daily. Or, for absolute maximum results, use 17-Methyl-dione Extreme™ (Version IV) in our 15-Week Pyramid Cycle.

The Power Of The Pyramid

The reason our 15-Week Pyramid Cycle is far superior to taking simply one capsule daily has to do with the concept of receptor downgrade. Many drugs and supplements, including 17-Methyl-dione Extreme™ (Version IV), are susceptible to receptor downgrade. What this means is initially the drug or supplement you are

taking works great. You feel the absolute maximum impact of the compound because your body has never been introduced to it before. But over time, your body gets used to the compound and you have to take more and more of it to get the same great results you did initially. Eventually, it doesn't matter how much of the compound you take — it simply won't work anymore.

This is where our 15-Week Pyramid Cycle comes in.

With this cycle, you gradually increase the dosage over time, and slowly reach the maximum amount you take. Then, you gradually decrease the dosage, bringing your body back to a normal state of homeostasis. **By doing this, you maximize results!**

Week #	17-Methyl-dione Extreme IV™
1	1 capsule/day
2	1 capsule/day
3	2 capsules/day
4	2 capsules/day
5	3 capsules/day

Plus, by decreasing the dosage on the way down **you are setting yourself up to take the 15-Week Cycle again, after a 4-week break or off period, to get the same maximum results you did with the last cycle!**

Don't get me wrong — you can still get great results with 17-Methyl-dione Extreme™ (Version IV) simply by taking one capsule daily. But, if you want to **absolutely maximize the potential for dramatic strength and muscle increases, THE 15-WEEK PYRAMID CYCLE IS THE WAY TO GO!**

Also consider trying our **15-Week Dynamic-Duo Muscle Building Pyramid Stack** which contains 17-Methyl-dione Extreme™ (Version IV) and the amazing testosterone booster 3,6,17-Androstenetrione.

Better yet, if you really want to take your muscle and strength building efforts to the next level, check out THE 15-WEEK SWARD'S STACK which includes 17-Methyl-dione Extreme™ (Version IV)!
