

3,6,17-ANDROSTENETRIONE

Testosterone Booster

Life After Prohormones

Let's face it guys — **testosterone is king!** Whether you are in the weight room, the boardroom or the bedroom, *having more of it increases performance — plain and simple.*

Prohormones were the best supplements available for boosting testosterone levels. They did this by providing a precursor, which allowed your body to make more of it — and man, did they work! Problem is, they have been banned by the U.S. government, not to mention they had potential negative side effects when they were abused. Since the U.S. government has made prohormones illegal, the sports supplement industry has been hard at work trying to come up with safe and legal replacements for prohormones.

Many of these replacements won't live up to the hype, but one product has emerged that is truly revolutionary and definitely will not disappoint. It is called **3,6,17-Androstenetrione** and it is the most effective and safest testosterone booster ever! This compound promotes dramatic increases in muscle and strength, just as effectively as

prohormones, but, best of all — **this product is both natural and non-hormonal.** This means 3,6,17-Androstenetrione is safer than prohormones and it is not affected by the government ban, which means it can be sold as a legal, pharmaceutical grade, dietary supplement.

How Does 3,6,17-Androstenetrione Work?

Research has shown that **men taking 3,6,17-Androstenetrione doubled their testosterone levels in only six weeks!** It does this by reducing

heightened estrogen levels that result from the aromatization of testosterone. Aromatase is an enzyme that converts testosterone to estrogen. This conversion is bad news for muscle and strength building efforts and 3,6,17-Androstenetrione binds to and destroys aromatase, inhibiting this action. **Bottom line, 3,6,17-Androstenetrione will greatly enhance functioning of your own natural testosterone production, which will result in a dramatic increase in muscle and strength!**

No Side Effects!

Since 3,6,17-Androstenetrione is non-hormonal (this is why it can be sold legally and is not affected by the 2004 Anabolic Steroid Control Act) it works naturally with your body and you avoid all the potential adverse side effects that could occur from using prohormones or anabolic steroids.

There is no water retention, hair loss or gynecomastia. There is no liver, heart or kidney stress. There are no cholesterol problems or testicular atrophy AND there are no problems with the law! Nice to not

Bottom line, 3,6,17-Androstenetrione will greatly enhance functioning of your own natural testosterone production, which will result in a dramatic increase in muscle and strength!

have to worry about these problems, isn't it? All you have to worry about is your training, diet and **packing on pounds of lean, hard muscle and dramatically increasing your strength!** Believe me, this is the best natural testosterone booster on the market today! Try it and **YOU WILL GAIN SOME SERIOUS MUSCLE!**

Each bottle of 3,6,17-Androstenetrione contains 60 capsules and each capsule contains 500mg of pure 3,6,17-Androstenetrione. You can get great results by taking as little as one 500mg capsule daily. Or, for absolute maximum results, use

3,6,17-Androstenetrione in our 15-Week Pyramid Cycle.

The Power Of The Pyramid

The reason our 15-Week Pyramid Cycle is far superior to taking simply one capsule daily has to do with the concept of receptor downgrade. Many drugs and supplements, including 3,6,17-Androstenetrione are susceptible to receptor downgrade. What this means is initially the drug or supplement you are taking works great. You feel the absolute maximum impact of the compound because your body has never been introduced to it before. But over time, your body gets used to the compound and you have to take more and more of it to get the same great results you did initially.

Eventually, it doesn't matter how much of the compound you take — it simply won't work anymore. This is where many of the potential negative health side effects can occur from taking such compounds as steroids or prohormones. Users increase the dosages because they want to keep getting results, but all they are really doing is potentially hurting themselves and wasting their money.

This is where our 15-Week Pyramid Cycle comes in. With this cycle, you gradually increase the dosage over time, and slowly reach the maximum amount you can take while still getting benefits but without potential side effects. Then, you gradually decrease the dosage,

bringing your body back to a normal state of homeostasis. **By doing this, you can maximize results and limit potential side effects!**

Week #	3,6,17-Androstenetrione
1	1 capsule/day
2	1 capsule/day
3	2 capsules/day
4	2 capsules/day
5	3 capsules/day
6	3 capsules/day
7	3 capsules/day
8	4 capsules/day
9	3 capsules/day
10	3 capsules/day
11	3 capsules/day
12	2 capsules/day
13	2 capsules/day
14	1 capsule/day
15	1 capsule/day

Back to week #1

Plus, by decreasing the dosage on the way down **you are setting yourself up to take the 15-Week Cycle again, after a 4-week break or off period, to get the same maximum results you did with the last cycle!**

Don't get me wrong — you can still get great results with 3,6,17-Androstenetrione simply by taking one capsule daily. In other words, I am not telling you about the 15-Week Pyramid Cycle just to get you to buy more. (If you do only take one capsule daily, take it at night, before bedtime.) But, if you want to **absolutely maximize the potential for dramatic strength and muscle increases with 3,6,17-Androstenetrione, THE 15-WEEK PYRAMID CYCLE IS DEFINITELY THE WAY TO GO!**

So, if you are trying 3,6,17-Androstenetrione for the first time, or if you have already taken 3,6,17-Androstenetrione with great results, but not in the 15-Week Pyramid Cycle and you are ready to take your strength and muscle gains to the next level — **THE TIME TO ACT IS NOW!**

Also consider trying our 15-Week Dynamic-Duo Muscle Building Pyramid Stack which contains 3,6,17-Androstenetrione and the powerful anabolic muscle builder 17-Methyl-dione Extreme™ (Version IV).

Better yet, if you really want to take your muscle and strength building efforts to the next level, check out THE 15-WEEK SWARD'S STACK which includes 3,6,17-Androstenetrione!
